Sutton Housing Society – Review of Staff Structure

Dear Residents

The Society has just completed a review of its staff structure. This will result in changes to staff and how we provide our services to you.

The changes were in response to new Government policies and initiatives and recognition within the Society that we could provide our services in a better way. Most importantly the changes were supported by our Board of Management who are committed to investing in and improving the services we provide to our tenants. We believe the new structure will result in better and more responsive services and a stronger organisation fit to face the future.

A small number of staff have left the organisation as a result of the review and we are now in the process of recruiting to some new staff positions. This will take a couple of months to achieve but in the meantime we will maintain our service to you. Please do not hesitate to contact us in the normal way and we will ensure requests or queries are dealt with.

When the new staff are all in place we will publish a newsletter introducing the staff and the new structure.

Chris Turton
Chief Executive
